LOGGING IN TO THE VENDOR PORTAL

URL: attendaapp.com/vendor

1. Open a browser on any device → go to attendaapp.com/vendor.
2. Enter the **email address** and **password** provided by the hotel.
3. Click **Sign In** — the Order Board loads.

First time logging in? The hotel admin sent your credentials via email. If you did not receive them, contact the hotel's front desk or admin.

Your login shows only YOUR orders — scoped to your business only.

MANAGING INCOMING ORDERS

Access: Order Board (main screen after login)

Understanding the Order Board

A Kanban board with four columns: **New** → **Received** → **Preparing** → **Ready**. A fifth column **Delivered** holds completed orders. New orders appear in the New column with an audio notification.

Processing an Order — Step by Step

Step 1: Accept the Order

1. Find the order in the **New** column.
2. Review: guest name, room, items, special instructions, total.
3. Click **Accept Order** → card moves to **Received**.

Accept as soon as you see the order. Guests track status in real time — a fast acceptance builds confidence.

Step 2: Begin Preparation

1. Start preparing the order.
2. Click **Start Preparing** → card moves to **Preparing**.

Step 3: Mark as Ready

1. When order is packaged and ready for pickup/delivery:
2. Click **Mark Ready** → card moves to **Ready**.
3. Hotel staff and guest are notified automatically.

Step 4: Mark as Delivered

1. When the order has reached the guest:
2. Click **Mark Delivered** → card moves to **Delivered**.

Status Summary

Button	Transition	Guest Sees on /track
Accept Order	New → Received	Order Received
Start Preparing	Received → Preparing	Preparing Your Order
Mark Ready	Preparing → Ready	Your Order is Ready
Mark Delivered	Ready → Delivered	Delivered ✓

Real-time: Every status change updates the guest's /track page instantly via Supabase Realtime. Keep status accurate and current.

ORDER MANIFEST

Access: Manifest tab

1. Click the **Manifest** tab in the Vendor Portal.
2. Today's orders appear in a flat list sorted by time.
3. Filter by Status (All / Active / Completed) or Time (Last hour / Today).
4. Use for end-of-day reconciliation or prep volume planning.

MANAGING YOUR MENU

Access: Menu tab in Vendor Portal

Adding a New Menu Item

- 1. Click the **Menu** tab → **+ Add Item**.
- 2. Fill in:

Field	Description
Item Name	The dish or product name
Description	Short description (ingredients, style)
Price	Price in dollars (e.g., 14.99)
Category	Appetizer / Main / Dessert / Drink / Other
Photo	High-quality image (JPEG or PNG, min 800px wide)
Active	Toggle ON to make visible to guests

- 1. Click **Save** — item appears in the guest ordering app immediately.

Editing a Menu Item

- 1. In the Menu tab, click the item to open the edit drawer.
- 2. Modify any field → click **Save**. Changes are live immediately.

Temporarily Hiding an Item (86'd / Sold Out)

- 1. Open the item in the edit drawer.
- 2. Toggle **Active** to **OFF** → click **Save**.
- 3. Item disappears from the guest app immediately.
- 4. Re-enable the same way when available again.

Tip: Use Active toggle instead of deleting items you may bring back. Deletion is permanent.

Deleting a Menu Item

1. Open the item in the edit drawer.
2. Click **Delete Item** (red button at the bottom) → confirm deletion.
